

10 AI Questions Every Family Should Ask on a College Tour

An independent guide for students, families, and counselors evaluating how a campus is preparing graduates for an AI economy.

1. Show me the AI lab. Can my student actually use it?
2. Which NVIDIA, Google, Microsoft, IBM, or NSF programs are active here?
3. How many undergraduates get hands-on AI experience each year?
4. Are AI certifications included in tuition?
5. How are non-STEM majors getting AI training?
6. What AI grants has this school won in the last 2 years?
7. Where are recent AI graduates working or founding companies?
8. Which faculty are publishing AI research?
9. Is there an AI-focused student organization or hackathon?
10. Who do we contact for AI internships and pathways?
